Hi Sara,

Here is the memo I sent to Rick regarding the hydrant inspection and flow testing.

I did make a correction when we met and told him that the four hydrants that were not tested were not, in fact, "out of service," as I mentioned in the memo. They are the new hydrants in your inventory waiting to be installed by your vendor in the new Saddleback Vista water system.

Gilbert, any update on the status of those four hydrants?

Best,

Brad
